

MODULE 4

MedTrack_DV

Hospital Operations & Patient Analytics Dashboard

Dashboard Planning & Prototyping

PREPARED BY
Divyanshi Verma

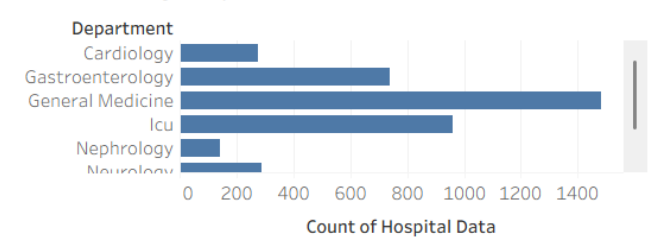

Hospital Overview Dashboard

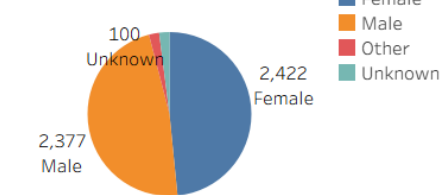

MedTrack Dashboard Story

Hospital Overview

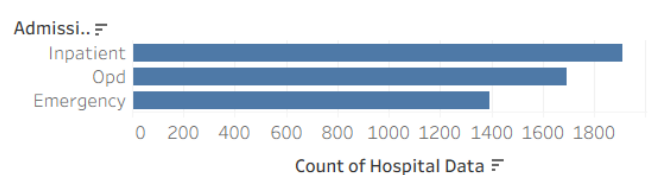

Patients by Department

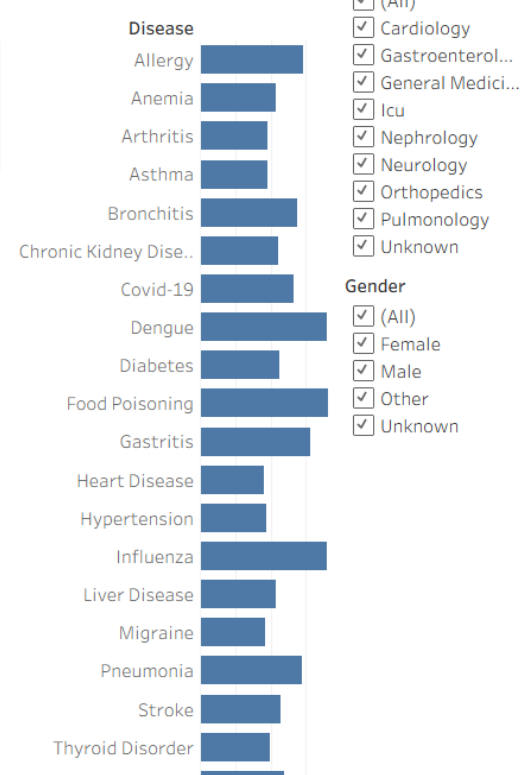

Gender Distribution

Admission Type

Disease Distribution

Purpose

Provides an overall summary of hospital operations.

Key Visualizations

- Patients by Department
- Gender Distribution
- Admission Type
- Disease Distribution

Filters

Department · Gender

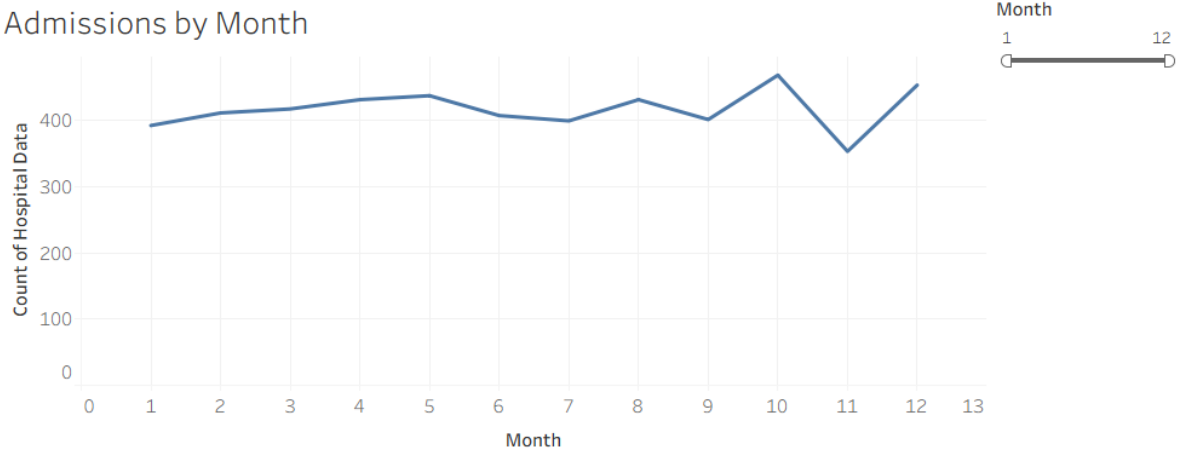

Outcome: Helps monitor patient demographics and hospital admissions.

Patient Flow Dashboard

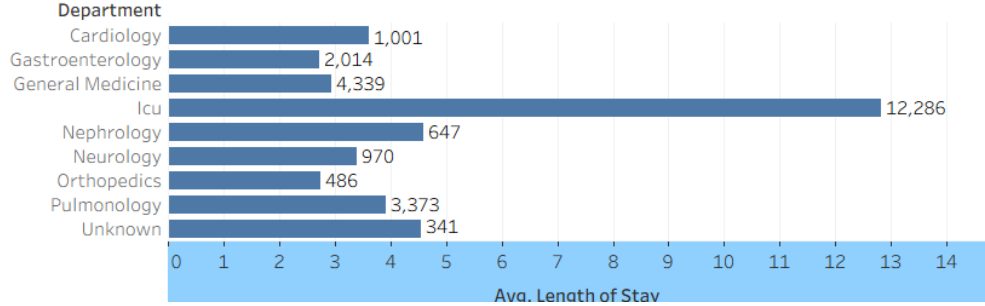

MedTrack Dashboard Story

Patient Flow

Admissions by Month

Average Length of Stay

Purpose

Analyzes patient admission trends and average hospital stay.

Key Visualizations

- Admissions by Month
- Average Length of Stay

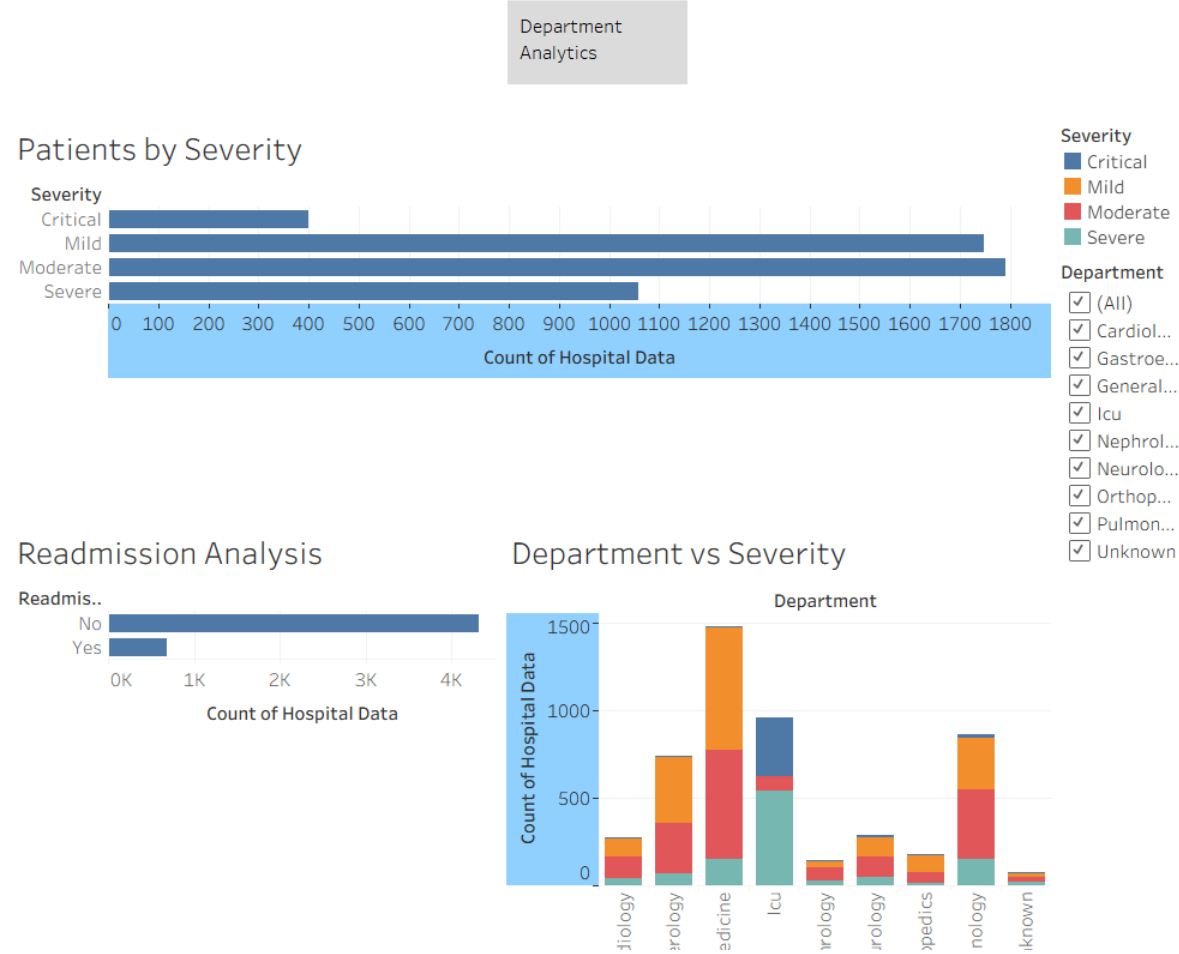

Filter

- Month

Outcome: Helps identify seasonal admission trends and patient flow.

Department Analytics Dashboard

MedTrack Dashboard Story

Purpose

Compares department performance and patient severity.

Key Visualizations

- Patients by Severity
- Readmission Analysis
- Department vs Severity

Filter

- Department

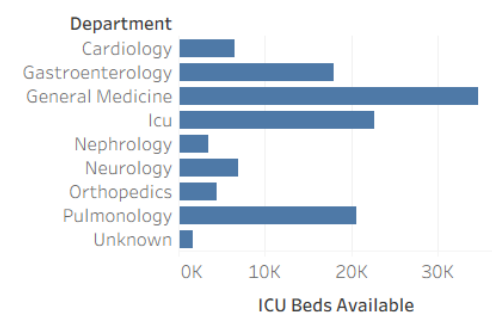

Outcome: Supports departmental performance evaluation.

Resource Utilization Dashboard

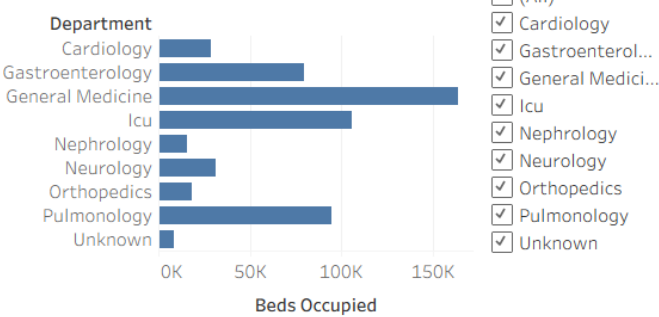

MedTrack Dashboard Story

Resource
Utilization

Beds Available by Department

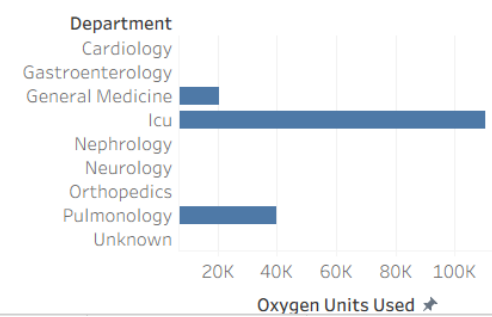

Beds Occupied by Department

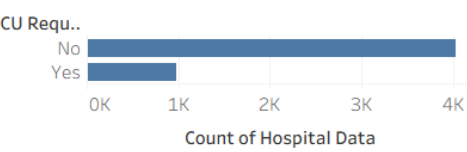

- Department
- ☒ (All)
 - ☒ Cardiology
 - ☒ Gastroenterol...
 - ☒ General Medici...
 - ☒ Icu
 - ☒ Nephrology
 - ☒ Neurology
 - ☒ Orthopedics
 - ☒ Pulmonology
 - ☒ Unknown

Oxygen Units Used

ICU Requirement

Purpose

Monitors hospital resource utilization.

Key Visualizations

- Beds Available
- Beds Occupied
- Oxygen Units Used
- ICU Requirement

Filter

- Department

Outcome: Supports efficient resource allocation.
