

Quality Assurance (QA) Checklist

Sr. No.	Test Item	Expected Result	Status
1	Dataset Loaded Successfully	All 100,000 records loaded without errors	✓ Pass
2	Data Types Verified	Dates, Dimensions and Measures correctly assigned	✓ Pass
3	Missing Values Checked	No critical missing values affecting dashboards	✓ Pass
4	Duplicate Records Checked	No duplicate Patient IDs affecting KPIs	✓ Pass
5	Total Admissions KPI	Displays 100,000 admissions	✓ Pass
6	Average Length of Stay KPI	Displays 5.36 Days	✓ Pass
7	Readmission Rate KPI	Displays 7.48%	✓ Pass
8	Average Treatment Cost KPI	Displays ₹4,893.89	✓ Pass
9	Bed Utilization KPI	Displays 81.54%	✓ Pass
10	Monthly Trend Chart	Monthly admissions displayed correctly	✓ Pass
11	Department Charts	All departments displayed accurately	✓ Pass
12	Insurance Distribution	Distribution values match dataset	✓ Pass
13	Severity Distribution	Critical, High, Medium and Low categories displayed correctly	✓ Pass
14	Patient Flow Dashboard	Admission trends and outcomes displayed correctly	✓ Pass
15	Department Analytics Dashboard	Department KPIs calculated correctly	✓ Pass
16	Resource Utilization Dashboard	Occupancy and bed utilization displayed correctly	✓ Pass

Sr. No.	Test Item	Expected Result	Status
17	Dashboard Filters	Filters update all related charts correctly	✓ Pass
18	Legends & Labels	Proper legends and labels visible	✓ Pass
19	Formatting	Fonts, colours and alignment consistent	✓ Pass
20	Dashboard Performance	Dashboard loads without noticeable delay	✓ Pass

Overall QA Result

- Dataset Validation: **Passed**
- KPI Validation: **Passed**
- Visual Validation: **Passed**
- Dashboard Interaction: **Passed**
- Performance Testing: **Passed**

Final QA Status

Overall Project Status: PASSED

The MedTrack Hospital Analytics Dashboard successfully passed all quality assurance checks. KPI calculations, dashboard visualizations, filters, formatting and interactions were validated successfully.
