

Dashboard Testing Report

Project Name: MedTrack – Hospital Operations &
Patient Analytics Dashboard

Prepared By: Pakshal Solanki

OBJECTIVE

The objective of testing was to ensure that all dashboards perform correctly, KPIs are accurate, visualizations are interactive, and healthcare metrics are displayed without errors.

SCOPE OF TESTING

The following dashboards were tested:

- Hospital Overview Dashboard
- Patient Flow Dashboard
- Department Analytics Dashboard
- Resource Utilization Dashboard

TEST CASES

Test Case 1

Test: Load Dataset

Expected Result

Dataset loads successfully.

Actual Result

100,000 patient records loaded successfully.

Status

 Pass

Test Case 2

Test: Validate KPI Calculations

Expected Result

KPIs should display correct values.

Actual Result

- Total Admissions = 100,000
- Average LOS = 5.36 Days
- Readmission Rate = 7.48%
- Bed Utilization = 81.54%
- Average Treatment Cost = ₹4,893.89

Status

 Pass

Test Case 3

Test: Monthly Admission Trend

Expected Result

Monthly admissions should display correctly.

Actual Result

Trend displayed correctly for all months.

Status

 Pass

Test Case 4

Test: Department Analytics

Expected Result

Department-wise performance displayed correctly.

Actual Result

Treemap, Heatmap and Summary charts generated correctly.

Status

 Pass

Test Case 5

Test: Patient Flow Dashboard

Expected Result

Admission trends, outcomes and heatmap displayed correctly.

Actual Result

All charts displayed correctly.

Status

 Pass

Test Case 6

Test: Resource Utilization Dashboard

Expected Result

Bed utilization, occupancy and resource consumption displayed correctly.

Actual Result

All resource-related charts displayed accurately.

Status

 Pass

Test Case 7

Test: Dashboard Filters

Expected Result

Filters update all charts dynamically.

Actual Result

All filters functioning correctly.

Status

 Pass

Test Case 8

Test: Dashboard Formatting

Expected Result

Professional layout with readable charts.

Actual Result

Consistent colours, fonts and spacing maintained.

Status

 Pass

KPI Validation

KPI	Expected Value	Actual Value	Status
Total Admissions	100,000	100,000	✔ Pass
Average LOS	5.36 Days	5.36 Days	✔ Pass
Readmission Rate	7.48%	7.48%	✔ Pass
Bed Utilization Rate	81.54%	81.54%	✔ Pass
Average Treatment Cost	₹4,893.89	₹4,893.89	✔ Pass

DASHBOARD VALIDATION SUMMARY

Dashboard	Tested	Result
Hospital Overview	Yes	✔ Pass
Patient Flow	Yes	✔ Pass
Department Analytics	Yes	✔ Pass
Resource Utilization	Yes	✔ Pass

ISSUES FOUND

No major issues were identified during testing.

Minor formatting adjustments (alignment and spacing) were corrected before final submission.

PERFORMANCE TESTING

- Dashboard loading time: **Good**
- Filter response: **Instant**
- Navigation: **Smooth**
- Visual rendering: **Accurate**
- Overall performance: **Excellent**

CONCLUSION

The MedTrack Hospital Operations & Patient Analytics Dashboard was successfully tested and validated. All KPIs, visualizations, dashboard interactions and healthcare metrics performed as expected. The dashboard is accurate, interactive and suitable for hospital performance monitoring, patient flow analysis, department comparison and resource utilization analysis. Based on the testing results, the project is ready for submission and presentation.
