

MedTrack_DV

Module 4: Dashboard Storyboard

Project: Hospital Operations & Patient Analytics Dashboard

Prepared By: Isha Kumari

Objective:

The objective of the MedTrack_DV project is to analyze hospital operations and patient data to derive actionable insights through interactive Tableau dashboards.

The dashboards will help stakeholders monitor:-

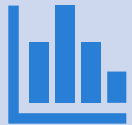

- Patient admissions
- Bed utilization
- Resource allocation
- Department performance
- Patient flow- Hospital KPIs

Dashboard Name: Hospital Overview

KPIs:-

Total Admissions
Average Length of Stay
Occupancy Rate
Bed Utilization Rate
Readmission Rate

Visualizations:-

KPI Cards
Monthly Admission Trend
Admission Type Distribution
Top Departments by Admissions

Purpose:

Provides a high-level summary of hospital performance and key operational metrics.

Layout:-

Total Admission

Occupancy Rate

Avg LOS

Readmission Rate

Bed Utilization

Monthly admission

Monthly Discharge

Admission Type

Department Analysis

Patient Flow By Department

Dashboard Name: Patient Flow

KPIs:-

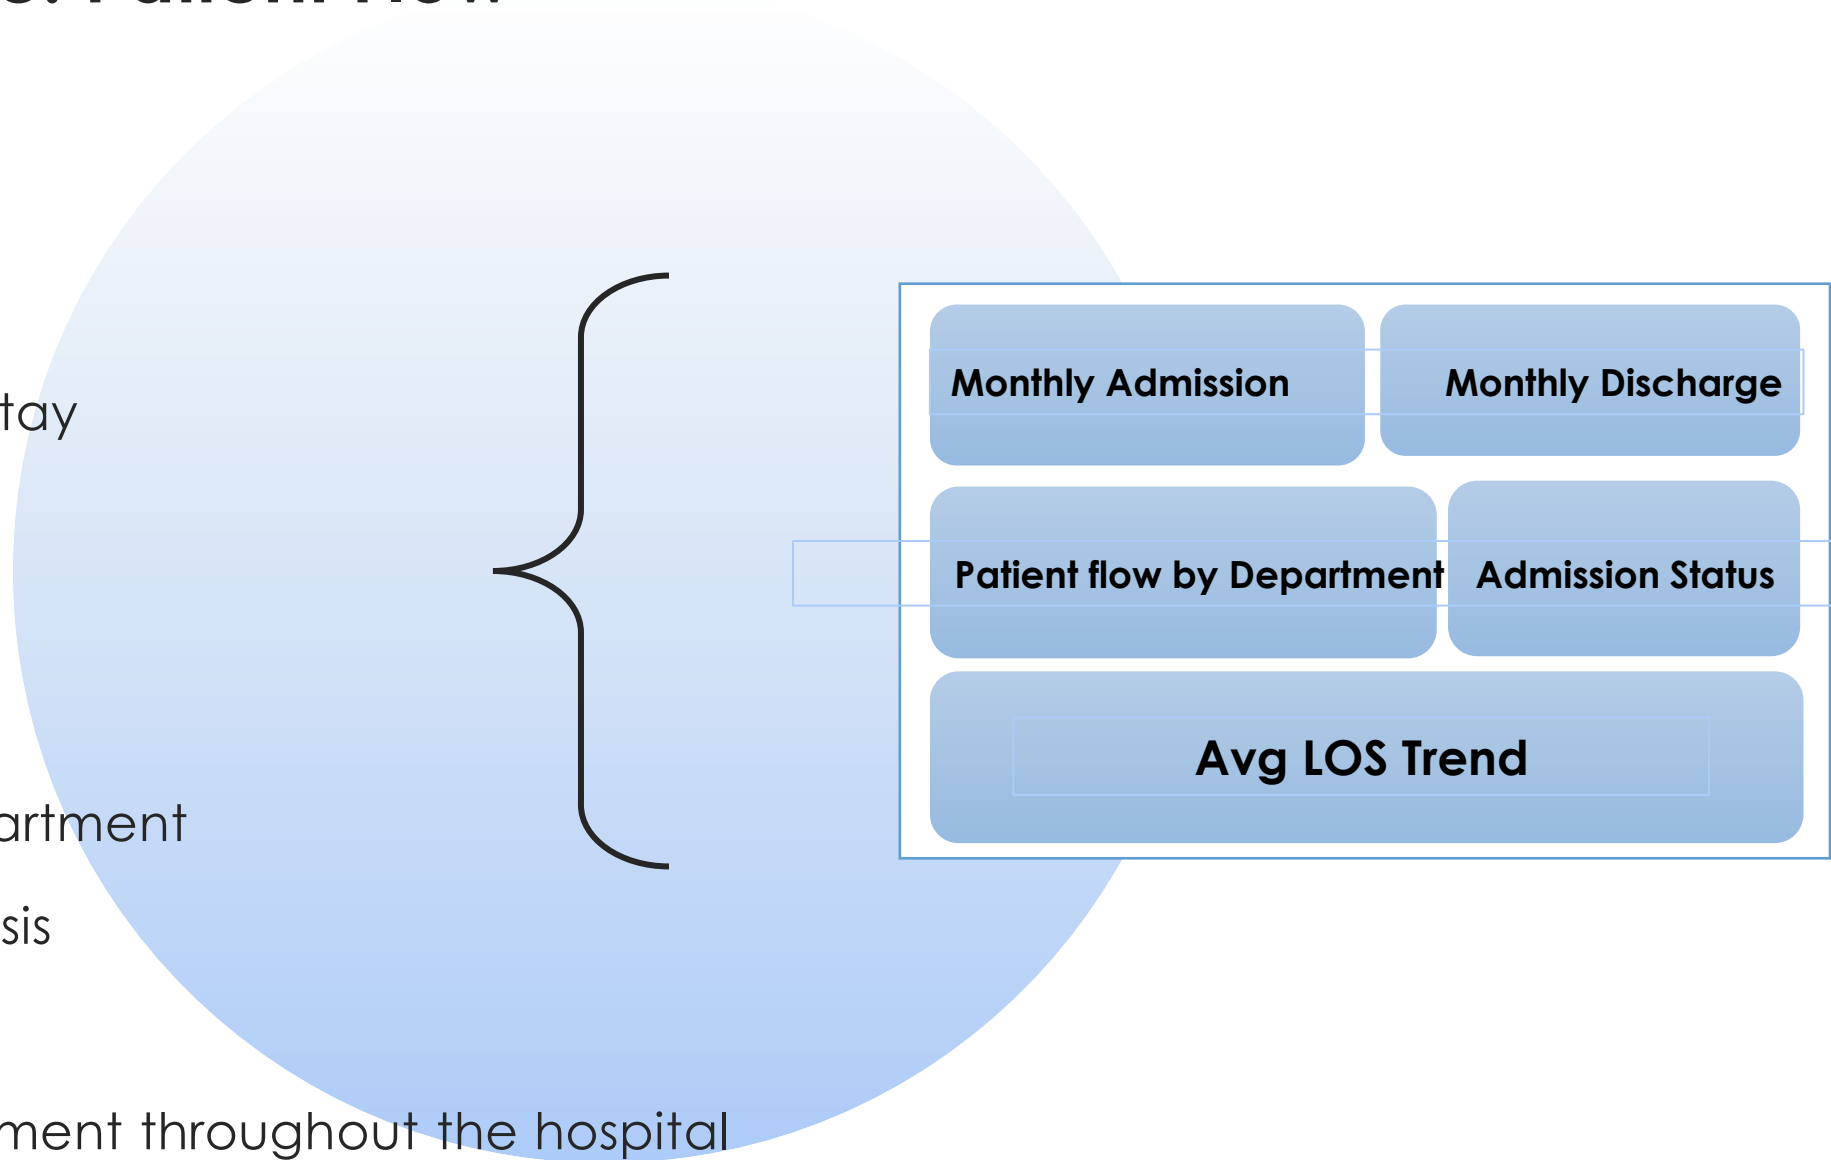

- Monthly Admissions
- Monthly Discharges
- Average Length of Stay

Visualizations:-

- Admission Trend
- Discharge Trend
- Patient Flow by Department
- Length of Stay Analysis

Purpose:

- Tracks patient movement throughout the hospital and identifies operational bottlenecks.

Dashboard Name: Department Analytics

KPIs:-

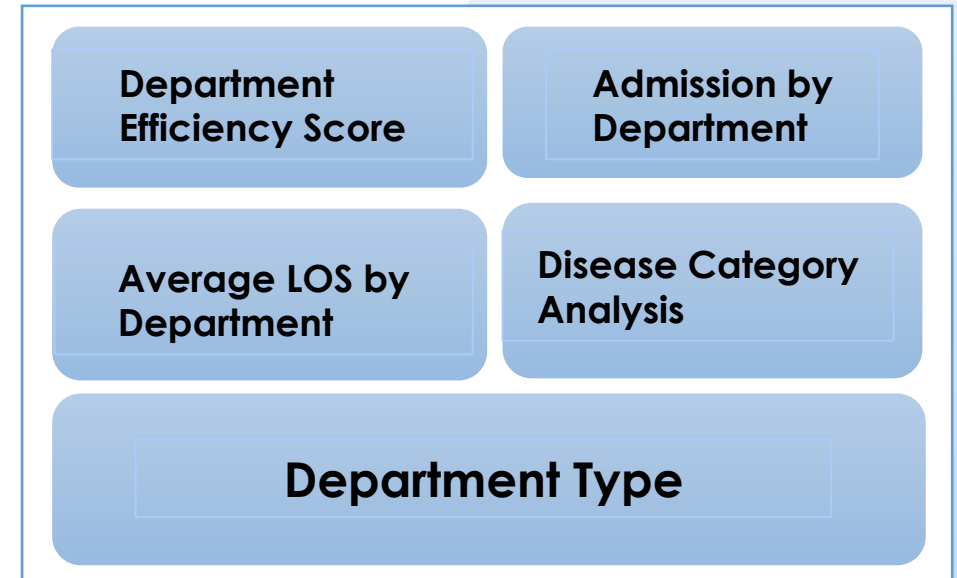

- Department Efficiency Score
- Admissions by Department
- Average LOS by Department

Visualizations:-

- Bar Charts
- Department Comparison
- Disease Category Analysis

Purpose:

- Analyzes departmental performance and identifies areas for improvement.

Dashboard Name: Resource Utilization & Outcomes

KPIs:-

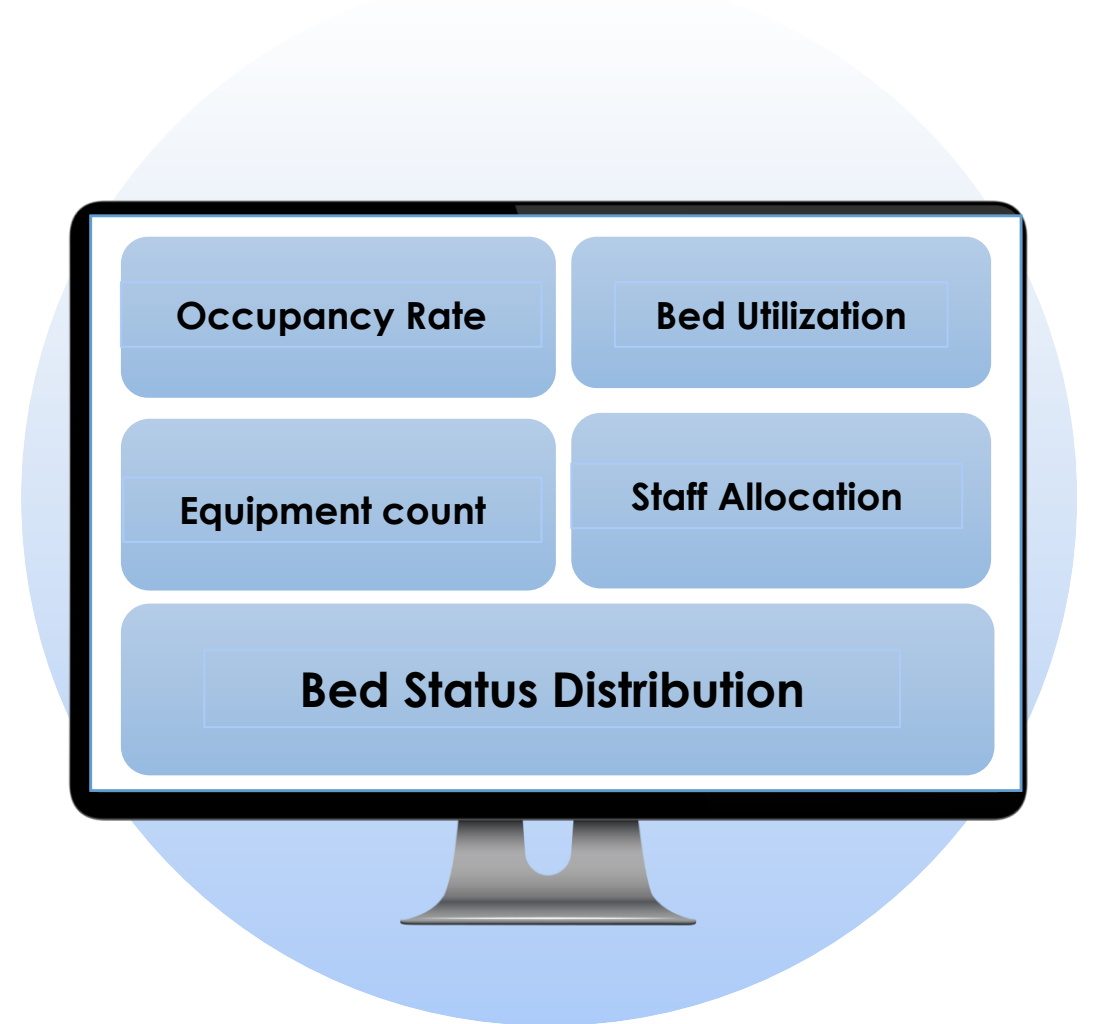

- Bed Utilization Rate
- Equipment Count
- Staff Allocation

Visualizations:-

- Bed Status Distribution
- Equipment Count by Department
- Staff Allocation Analysis

Purpose:

- Monitors the utilization of hospital resources to improve efficiency and patient outcomes.

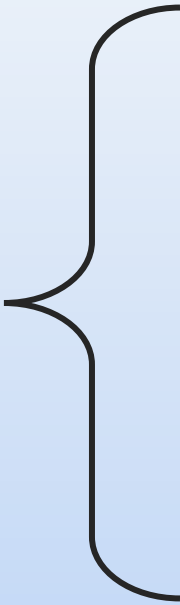

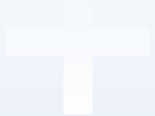

Filters:-

- Department
- Admission Type
- Gender
- Disease Category
- Date Range
- City

Conclusion:

The proposed dashboard storyboard provides a structured plan for developing interactive Tableau dashboards. The dashboards are designed to support data-driven decision-making and improve hospital operations.

Thank you
